DIMENSIONS IN INCHES

CASTERS

2 1/6" diameter yo-yo type duals for hard floor and carpet, made of high impact polypropylene, with ribs, metal bolt that assembles in the star base and metal washers that prevent detachment and a useful life of more than 98,000 cycles.

BASE

Base with 5 points of 25 "diameter, made of reinforced nylon, with reinforcement ribs and central steel ring where the piston sits.

ELEVATION SYSTEM

High pressure gas pneumatic piston 10 5/8"high, with a capacity of more than 60,000 cycles, finished in black.

MECHANISM

Permanent contact mechanism with tension regulator by means of knob and height adjustment system by means of lever.

SEAT

Internal structure in the seat based on a molded multiplay plywood wood, threaded metal inserts to fix the mechanism's metal plate and armrests. Cushioning based on cut foam of 3.43 lb/ ft3 minimum density with ergonomic designs and shapes, upholstered in 100% polyester fabric, with protective polypropylene shell and black dust cover.

BACKREST

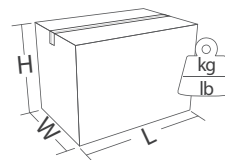

Polypropylene frame with support for attachment to the mechanism by means of screws, upholstered in 100% polyester mesh, with polypropylene support arms.

ARMRESTS

"T" - shaped fixed armrests made of high quality rigid black polypropylene injection attached to the seat with screws.

NOTES

* All slag-free micro-wire type solder joints.
